

Apr. 12, 1935

Muddy Irrigation Company,
% D.W.P. Stevens,
Mt. Carmel, Utah

RE : LONG VALLEY DIST.

Gentlemen:

Upon examination I find that you are in arrears on assessments made for distribution purposes on Long Valley distribution as follows:

1930	\$ 4.45
1932	.40
1934	<u>12.35</u>
Total	\$ 17.20

Under the law, Section 100-3-1, Revised Statutes of Utah, 1933, the State Engineer is charged with making assessments for expenses of distribution according to the rights as they appear. This has been done in your case and there is yet due the amount of \$17.20 as above referred to. I am asking you therefore, to send me immediately a check for this amount which if not done, places me in the position of ordering the Commissioner to close your gates and thus shut off the water until you will have paid the amount referred to.

Before taking this action however, I shall be glad to hear if in your opinion there is any good and sufficient reason why this action should not be taken. Action will be delayed a reasonable time pending your answer to this letter.

Yours very truly,

T.H. Humpherys,
STATE ENGINEER
